R. Wallace, USA

Local Organizing Committee

M.L. Foegh, Chairman
M.R. Alijani
G.B. Helfrich
N.M. Katz
K.M. Kent
M.S. Visner

Dear Colleague:

We are continuing our series of Surgical and Transplantation Conferences at Georgetown University in honor of Dr. Alexis Carrel who came to the United States from France at the turn of the century to begin the first studies on transplantation for which he received the Nobel Prize in 1912. Dr. Carrel was well known in the Jesuit community here at Georgetown. His equipment and notebooks are stored in the archives of the Georgetown Library.

The topic of the Second International Conference will be "Transplant Arteriosclerosis". The Conference will be held on the 25th to the 27th of March, 1987. I am enclosing the topics of the meeting, a list of the invited speakers, registration forms and other information.

Sincerely,

Marie L. Foegh, M.D., D.Sc.
Associate Professor and Director of Research
Division of Transplantation

Tel. (202) 625-2444

No. 206 Kober-Cogan Building 3800 Reservoir Road NW Washington DC 20007-2197
